

Rig scheduling made easy

Rig

- One database for entire rig scheduling workflow
- Powerful visual display of rigs and wells highlighting well maturity and white space
- Easy switch between Drafts and Master

WHY

- Transparency
- Lookahead
- No human errors
- Saved rig days

WHO

- Management
- Partners and Investors
- Multi-disciplinary

WHEN

- Any drilling operation
- Scheduling
- Monitoring

WHAT USERS SAY

"Rig transforms the way we optimize our rig portfolio by digitalizing the rig scheduling process and enabling flow efficiency through the asset value chain."
